MEMORANDUM FOR: John Glenn, Chief, Nuclear Materials Safety  
Section B, Nuclear Materials Safety and  
Safeguards Branch, RI

FROM: Glenda Jackson, Materials Program Coordinator  
License Fee Management Branch, ARM/DAF

SUBJECT: CLASSIFICATION OF MATERIALS LICENSE 29-01788-02

This is to request your assistance in determining the proper classification of the subject license. Your responses to the following will help us determine the proper fee category(ies) to assign to the license:

1. Item 8.A. states that this is a Type C Broad License, and the program code is 03612 Research and Development Type C Broad). However, it is not clear from Item 9. whether the license authorizes research and development. Please clarify this for us.
2. Does RCA process for distribution under this license? We note that License 29-04563-03, which is a similar license, authorizes possession, processing, testing and storage.
