

MEMORANDUM FOR: Seymour H. Weiss, Director
Non-Power Reactor
Decommissioning and Environmental
Directorate, NRR

AUG 08 1989

Cecil O. Thomas, Jr., Chief
Policy Development and
Technical Support Branch, NRR

FROM: Michael J. Bell, Chief
Regulatory Branch
Division of Low-Level Waste Management
and Decommissioning, NMSS

SUBJECT: REVIEW OF FORT ST. VRAIN PRELIMINARY DECOMMISSIONING PLAN

Public Service of Colorado (PSC) previously notified the NRC of its intent to terminate operations at Fort St. Vrain Nuclear Generating Station and has submitted a Preliminary Decommissioning Plan for review. As discussed with Pete Erickson and in agreement with the March 21, 1989 Memorandum regarding the transfer of regulatory authority for reactor decommissioning, we will be transmitting a Safety Analysis Report (SAR) and comments from the Regulatory Branch to the Non-Power Reactor, Decommissioning and Environmental Directorate Branch. In order to develop the SAR, we are requesting the support of your staff in conducting this review. Enclosure 1 lists the areas to be reviewed and the requested reviewers. Enclosure 2 provides a tentative schedule for the review of the Preliminary Decommissioning Plan. We appreciate your staffs support in the review. Please contact us if the proposed schedule can not be accommodated.

If you, or any of your staff, have any questions please contact me at X-20560 or Larry Pittiglio on X-23438.

Original Signed by
MICHAEL J. BELL
