Subject: IE Bulletin No. 88-10, Non-Conforming Molded-Case Circuit Breakers-Completion of Vendor Audits

Gentlemen:

With Maine Yankee's supplemental response to IE Bulletin No. 88-10, Reference (f), Maine Yankee committed to verifying traceability of twelve molded case circuit breakers installed in class IE systems. Four of the twelve breakers were discussed with Reference (f). Maine Yankee has completed review of the purchasing and audit records for the eight remaining circuit breakers installed in Class IE applications. We have verified that these breakers are traceable to the original manufacturer and records are available on site for NRC review.

This supplement completes Maine Yankee's response to IE Bulletin No. 88-10. We trust this information is satisfactory. Please contact us should you have any questions regarding this matter.

Very truly yours,

MAINE YANKEE
