Ms. Doris Foster
Senior Licensing Assistant
Nuclear Regulatory Commission
631 Park Ave.
King of Prussia, PA 19406

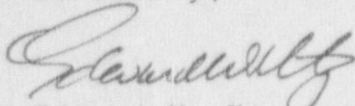

Dear Ms. Foster,

I am writing to request ammendment to our materials license (number 37-13169-01, docket number 030-0-7075). Specifically, I request that item 12 be ammended so that the licensed material shall be used by, or under the supervision and in the physical presence of Edward W. Vitz.

I (Edward W. Vitz) received a PhD in Inorganic Chemistry from Michigan State University in 1975. I completed a graduate laboratory and lecture course (CEM 830) in Nuclear and Radiochemistry there. I used chromium-51 prepared in the TRIGA reactor at Michigan State in tracer studies which were part of my Doctoral research at Michigan State, and also as part of the Postdoctoral Research Associateship that I completed there. I have experience with phosphorus-32 tracers in biochemistry, and currently direct a nationwide survey of radon in potable water, for which I use licenseable quantities of radium-226 (License Number PA-510) I am a member of the Health Physics Society. I maintain an ICN personal dosimeter and a variety of monitoring devices as required by my radium-226 license. I fully understand the testing and operating procedures for our Model 50 "Gammator" Cesium-137 irradiator, and have submitted test samples to Isomedix, Inc., semiannually for the last 3 years.

If you require other information to support my request for ammendment of our materials license, I shall be glad to supply it. Thank you for your consideration.

Sincerely,

Edward W. Vitz
Associate Professor
Department of Physical Sciences
