Uranium Recovery Field Office
P.O. Box 25325
Denver, CO 80225

REF: Docket No. 40-8714
License No. SUA-1352 (Collins Draw, Wyoming)

Dear Mr. Konwinski:

The Cleveland-Cliffs Iron Company, as Manager of the Thunderbird Solution Mining Joint Venture, has completed the decontamination and reclamation of the Collins Draw Solution Mining Research Project site in Campbell County, Wyoming. A complete report of these recent activities has been sent to you under separate cover by Energy Laboratories, the Casper consulting firm that has been assisting us with the work.

I have enclosed a completed "Certificate of Disposition of Materials". Cleveland-Cliffs hereby requests that the NRC proceed with the termination of our license for the Collins Draw site. We believe we are in compliance with NRC regulations and that we have completed all prerequisites for license termination.

Thank you for your cooperation in this matter. Please call if additional information is required.

Very truly yours,

Gary D. Aho
