William J. Cahill, Jr.  
Executive Vice President

U. S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D. C. 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)  
DOCKET NOS. 50-445 AND 50-446  
REVISIONS REGARDING RESPONSES TO NRC DESIGN  
VALIDATION PROGRAM INSPECTIONS

REF: 1) TU Electric letter TXX-89059, dated February 15, 1989

Gentlemen:

Reference 1) scheduled a commitment with respect to mechanical fluid systems open items F-33 and F-37 to be implemented by June 26, 1989. The revised schedule completion dates for these open items will be prior to Unit 1 fuel load. Documentation will be available for your review after the completion of these items.

Sincerely,

*William J. Cahill, Jr.*  
William J. Cahill, Jr.
