Dear Mr. Mroczka:

SUBJECT: ISSUANCE OF AMENDMENTS (TAC NOS. 71877, 71878, 71879 and 71880)

The Commission has issued the enclosed Amendment Nos. 114, 30, 141 and 33 to Facility Operating License Nos. DPR-61, DPR-21, DPR-65 and NPF-49 for Haddam Neck and Millstone Units 1, 2 and 3, respectively. These amendments are in response to your application dated January 12, 1989.

This change modifies the Technical Specifications (TS) of the four plants to be consistent with the plant restart provision in 10 CFR 50.36 if a plant exceeds a safety limit. In addition an amendment to the Millstone Unit No. 3 TS has been made to make the audit provisions of TS 6.5.3.7 consistent with that of the other three plants.

A copy of the related Safety Evaluation is also enclosed. The Notice of Issuance will be included in the Commission's bi-weekly Federal Register notice.

Sincerely,

/s/

John F. Stolz, Director  
Project Directorate I-4  
Division of Reactor Projects I/II  
Office of Nuclear Reactor Regulation
