Brooks AFB, Texas 78235-5000

Gentlemen:

This refers to your letters dated May 22, 1989, and July 26, 1989, transmitting the Final Report of Decommissioning of Nuclear Medicine Facility - Travis AFB, California. On August 8, 1989, we were notified by our Region V office that the report and addendum were found to be adequate and that they do not wish to perform independent confirmatory closeout surveys of building 381. Therefore, the subject facility may be released for unrestricted use at your discretion.

Sincerely,

Original Signed By:

CHARLES L. CAIN
