Northern States Power Company
ATTN: Mr. C. E. Larson
Vice President, Nuclear
Generation
414 Nicollet Mall
Minneapolis, MN 55401

Gentlemen:

This confirms our plans as discussed between Mr. A. A. Hunstad of your staff and Mr. B. L. Burgess of this office to have a meeting with you and members of your staff at the Prairie Island Training Center, on July 27, 1989 at 9:00 a.m. The purpose of the meeting is to present the SALP 8 Report for the Prairie Island Nuclear Generating Plant.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Northern States Power Company and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Prairie Island Nuclear Generating plant.

Sincerely,

William L. Stoney
for Edward G. Greenman, Director
Division of Reactor Projects
