License No. 13-00155-02
Docket No. 030-04326
Control No. 83646

Gentlemen:

We have reviewed your letter dated December 16, 1987, which lists all the gauges you have in-plant.

Unfortunately, the list does not discriminate between the specifically licensed material and which gauges or measuring instruments are generally licensed. My letter to you was unclear in stating that I only needed a list of the GENERALLY licensed sources in your possession. Also, the list you sent did not state the model number of the sealed sources contained in the source holders. It only states the model numbers of the source holders.

Please send in a list of just the generally licensed devices and the model numbers of the sealed sources as well as the model numbers of the source holders.

If you have any questions or require clarification on any of the information stated above, you may contact us at (312) 790-5625.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 83646.

Sincerely,

Patricia M. Vacherlon
