Lake Success, New York 11042

Gentlemen:

This is in reference to your request in a letter dated September 22, 1987 to amend License No. 20-20973-01. In order to continue our review, we need the following additional information:

In the enclosure, you provide a resume for George Frola, Jr. as your Radiation Safety Officer. However, you did not describe his formal training in the following areas:

- a. principles and practices of radiation protection
- b. radioactivity measurement standardization and monitoring techniques and instruments
- c. mathematics and calculations basic to use and measurement of radioactivity
- d. biological effects of radiation

In addition, describe his work experience with radiation, including where his experience was obtained. Work experience or on-the-job training should be commensurate with the proposed use. Include a list of radioisotopes and the maximum activity of each used.

We will continue our review upon receipt of this information. Please reply in duplicate to my attention at the Region I office and refer to Mail Control No. 107841.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we shall assume that you do not wish to pursue your application.

Sincerely,

Original Signed By:  
Jack Davis
