Docket Nos. 50-352
50-353

Philadelphia Electric Company
ATTN: Mr. C. A. McNeill
Executive Vice President-Nuclear
Correspondence Control Desk
P.O. Box 7520
Philadelphia, Pennsylvania 19101

Gentlemen:

Subject: Inspection No. 50-352/89-10 and 50-353/89-16

This letter transmits the routine resident safety inspection by Messrs. T. Kenny, L. Scholl, R. Fuhrmeister and Ms. M. Evans from April 23 - May 28, 1989 at the Limerick Generating Station, Limerick, Pennsylvania. Region I inspectors J. Williams and C. Woodard also participated in this inspection. The inspection consisted of document reviews, interviews, and observation of activities. The results have been discussed with Mr. Martin McCormick, Jr. of your staff.

Based on our inspection, apparent violations of procedures occurred during the performance of several activities. In addition, apparent violations of 10 CFR 50, Appendix B, Criterion X, "Inspection", have also been identified as a result of the NRC Independent Design and Construction Assessment corrective action inspection (Report No. 50-353/89-200). These apparent violations have been categorized by severity level according to 10 CFR Part 2, Appendix C (Enforcement Policy). You are required to respond to these violations and in preparing your response you should follow the instructions in Appendix A and B. These issues indicate that increased management attention and first line supervision is warranted to ensure that activities are properly conducted. In addition this appears to be a repeat of a violation identified in NRC Report No. 50-352/89-09.

In accordance with 10 CFR 2.79(a), a copy of this letter and the enclosures will be placed in the Public Document Room. The response directed by this letter and the accompanying notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
