

June 28, 1989

Docket No. 50-297

Dr. Bruce R. Poulton  
Chancellor  
North Carolina State University  
Box 7001  
Raleigh, North Carolina 27695-7001

Dear Dr. Poulton:

SUBJECT: REVIEW OF LICENSE RENEWAL APPLICATION

The Nuclear Regulatory Commission and our contractor, the Idaho National Engineering Laboratory, are continuing our review of the documentation submitted in support of your application for renewal of your operating license for the North Carolina State University PULSTAR Research Reactor. We plan to conduct a visit to your reactor facility to discuss your application and to increase our familiarity with your facility. It is anticipated that a total of five people will participate in the visit. The date of our visit has been scheduled with the reactor staff for the week of July 31, 1989.

During our visit we want to discuss your responses to preliminary questions dated April 25, 1989. Responses to these questions should not be submitted formally; instead, the information should be made available in written draft form, as appropriate, for discussions while we are at your facility. We will then develop and send you a formal set of questions and request formal submitted written responses.

If you have any questions, I can be reached at (301) 492-1121.

Sincerely,

/s/

Alexander Adams, Jr., Project Manager  
Standardization and Non-Power  
Reactor Project Directorate  
Division of Reactor Projects - III, IV,  
V and Special Projects  
Office of Nuclear Reactor Regulation
