Updated Final Safety Analysis Report

Gentlemen:

Enclosed for your information and use is one signed original and ten additional copies of Revision 9 to our Updated Final Safety Analysis Report (UFSAR). These copies are provided in accordance with 10 CFR 50.71(e) and 50.4(b)(6).

Attachment 1 to this letter identifies facility changes made under the provisions of 10 CFR 50.59 and reflected in this revision, but not previously reported to the Commission. The List of Effective Pages for the UFSAR is included with the enclosed revision.

In a conference call with Dr. P. K. Eapen and Mr. G. A. Napuda on March 16, 1988, we agreed to include a summary of our basis for concluding QA Program changes do not reduce BG&E's commitments. Attachment 2 contains a summary for each QA Program change made since the last UFSAR revision.
