Re: License No.: 08-15484-01 Wm. A. White Building
License No.: 08-15484-02 Blackburn Laboratory

Gentlemen:

Presently, two NRC licenses are held by Saint Elizabeths Hospital of the National Institute of Mental Health in Washington, D.C. These facilities have been previously controlled by the federal government only. However, as of October 1, 1987, per Public Law 98-621, it is the intent of the District of Columbia to govern the Blackburn Laboratory facility. When bringing this transaction to the attention of your agency, several items required responses from our facility. Upon this request, I submit the following:

1. Will the name of either institution change? Yes, the Blackburn Laboratory will come under the Commission on Mental Health Services. The Wm. A. White Building will remain under the National Institute of Mental Health.
2. The Radiation Safety Committees have been separated and membership re-established as follows:

Dr. Willie Maar (current RSO)
Dr. T. Flanagan

4. There are no changes in authorized users, equipment, quantities, etc., which require an amendment at this time. However, we would like to reference a previous letter dated September 1987, requesting an increase in the Xenon possession for the Wm. A. White Building, License No. 08-15484-01.
5. The attached letter to the NRC provides your agency with a statement assuring compliance with previously established license commitments.
6. Public Law 98-621 signed November 9, 1984, documents the agreement of transfer by both parties.

It is our intention to provide your agency with all necessary information to assure license compliance.

There are no changes in authorized users, equipment, personnel and desired by-products, etc. The new administration and myself (as the Radiation Safety Officer), will continue to comply with NRC license commitments.
