Docket No.: 030-30835
License No.: New License
Application
Control No.: 86145

Gentlemen:

We have received and reviewed your September 26, 1988 application for a new fixed gauge license and find that we will need additional information.

We were unable to locate a description of the Data Management gauge in our Sealed Source and Device Catalog. It appears that this gauge may be distributed under a general license and, therefore, would not necessarily be included in our Sealed Source and Device Catalog.

In order to continue our review, we will need the following information:

1. A description of the gauge. See the enclosed guide for the information we require.
2. A copy of Data Management's license authorizing distribution of the gauge.

If you have any questions or require clarification on any of the information stated above, you may contact us at (312) 790-5625.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 86145.

Upon failure to file an answer within the specified time, we will consider that you have abandoned your request and will void this action. This is without prejudice to resubmission of the application.

Sincerely,

Patricia M. Vacherlon
