RE: Land Use Report

Dear Mr. Smith:

The Source Material License SUA-1470, Condition #33, requires ARCO Coal Company to submit an annual Land Use Report by July 1 of each year. On June 27, 1988 Anaconda Minerals Company submitted the Land Survey Report required for 1988. This Report addressed residences, drinking and production wells, grazing land and commercial locations within a two mile radius of the Bluewater Mill. As of today, one year later, there are no changes or additions to items included in the 1988 Report and study area.

As per the telephone conversation with Natver Patel of my staff, and Pete Garcia of your staff on June 27, 1989, it was concluded that a letter indicating no change in the information of the 1988 report would satisfy the compliance requirement for a July 1, 1989 Land Use Survey Report submittal. Arco hereby submits this letter informing the USNRC of no change in land use information since the last Land Use Report.

Should you have any questions, please contact me or Natver Patel of my staff.

Sincerely,

R. S. Ziegler
Project Manager
