

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

August 23, 1989

Docket Nos. 50-445  
and 50-446

Mr. Robert A. Wiesemann  
Manager  
Regulatory and Legislative Affairs  
Westinghouse Electric Corporation  
P. O. Box 355  
Pittsburgh, PA 15230-0355

Dear Mr. Wiesemann:

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE  
(CAW-89-047)

By your application dated March 22, 1989 and affidavit dated March 22, 1989, you requested that WCAP-12228, entitled "Transit Time Flow Meter (TTFM) Calculations," be withheld from public disclosure pursuant to 10 CFR 2.790. TU Electric submitted this topical report, using information proprietary to Westinghouse Electric Corporation on March 31, 1989 (TXX-89151) for NRC review.

You stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

1. It reveals the distinguishing aspects of a process where prevention of its use by any of Westinghouse's competitors without a license from Westinghouse constitutes a competitive advantage over other companies.
2. Its use by a competitor would reduce the competitor's expenditure of resources or improve the competitor's competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information. Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from the public shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

DF01  
10

Mr. Robert A. Wieseemann

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

Sincerely,

Christopher I. Grimes  
Comanche Peak Project Division  
Office of Nuclear Reactor Regulation
