RADIOLOGICAL CONTROL

August 1, 1988

U.S. Nuclear Regulatory Commission
Materials Licensing Section, Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Gentlemen:

This is to inform you of a change in our address as specified in our broad scope license 13-02812-04. The former address, Pharmacy Building, has been changed to Civil Engineering Building. All Radiological Control activities will be conducted from offices and laboratories located in the Civil Engineering Building.

As always, we will continue to conduct our program in accordance with our license conditions and NRC regulations. If you should have any questions, please call me at (317) 494-2350. Thank you for your attention in this matter.

Sincerely,

A handwritten signature in cursive script that reads "James F. Schweitzer".

James F. Schweitzer
Radiological Control Officer
