DOCKET FILE

April 26, 1989

Docket Nos. 50-254 and 50-265

Mr. Thomas J. Kovach
Nuclear Licensing Manager
Commonwealth Edison Company
Post Office Box 767
Chicago, Illinois 60690

Dear Mr. Kovach:

SUBJECT: WITHDRAWAL OF AMENDMENT REQUEST FOR QUAD CITIES STATION
(TAC NOS. 68293 AND 68294)

By letter dated May 17, 1988, Commonwealth Edison Company (CECo) submitted a Technical Specifications (TS) amendment request to revise requirements associated with the Rod Block Monitor. However, CECo staff subsequently decided this amendment would be superseded by other amendment requests being generated as part of an internal CECo TS improvement program. CECo agreed with NRC staff during a recent meeting that the amendment is no longer necessary. Consequently, based on our understanding of your intentions, we are considering CECo's amendment request of May 17, 1988 to be withdrawn. If this information is not correct, please notify the NRC of your intended actions within 10 days of receipt of this letter.

Sincerely,

Thierry M. Ross, Project Manager
Project Directorate III-2
Division of Reactor Projects - III
IV, V, and Special Projects
