SUBJECT: LLWM STAFF REVIEW COMPLETION OF DOE'S  
EARTH-MOUNDED CONCRETE BUNKER (EMCB)  
PROTOTYPE LICENSE APPLICATION SAFETY ANALYSIS  
REPORT (PLASAR)

The Division of Low-Level Waste Management and Decommissioning (LLWM) has recently completed a review of the subject report, related to an alternative method of LLW disposal. The report was developed by the DOE and was made available to the States and interested parties by DOE, at the time of its submittal to the NRC for review, in November 1988.

LLWM is transmitting the results of our technical review to Dr. Joseph A. Coleman of DOE. We have attached the products of that review to this memo, and request that your Office transmit this information to the appropriate State licensing authorities. If you have any questions, please contact Joseph Kane at 492-3449.
