and 50-388

Dear Mr. Varga:

The attachment to this letter is Pennsylvania Power & Light Company's response to the NRR Regulatory Effectiveness Review Report for Susquehanna SES. Pennsylvania Power & Light has established a team to evaluate the appropriate scope for a planned major project to upgrade security. The scope for this project is expected to address a number of the findings in the RER. I expect the scope of the project to be finalized and approved in November. A supplemental response will be provided by the end of the year. If you have any questions, please contact Ray Harris at (215)770-7918.

Very truly yours,

  
For H. W. Keiser
