Docket No. 030-21044

License No. 57-23414-01

Government of American Samoa  
Department of Public Works  
Pago Pago, American Samoa  
USA 96799

Attention: Mr. Teo Fuavai, Director of Public Works

Gentlemen:

SUBJECT: NRC INSPECTION AND ENFORCEMENT CONFERENCE

This refers to the routine safety inspection conducted by Mr. P. Zurakowski of this office on April 18, 1989 of activities authorized by NRC License No. 57-23414-01 and to the discussion of the findings held by Mr. P. Zurakowski with Mr. Andy Smith of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observations by the inspector.

During this inspection, certain of your activities were found to be in apparent violation of NRC requirements. Due to our concern for these apparent violations, Mr. R. Pate of my staff contacted Mr. Andy Smith on May 2, 1989 to arrange for the scheduling of an enforcement conference to be held between NRC Management and the management of the Department of Public Works, American Samoa.

It was established that the meeting would be held on May 12, 1989 at 10:00 a.m. in Room 3316 of the Federal Building located at 300 Ala Moana, Honolulu, Hawaii. The following matters will be discussed:

1. The apparent violations identified during the last inspection on April 18, 1989.
2. NRC enforcement options
3. NRC concerns
4. Licensee management responsibilities

We anticipate the entire meeting will take approximately two hours.

The need for and the nature of the enforcement actions relative to the apparent violations, as discussed in the enclosed inspection report, will be considered after this conference and will be the subject of separate correspondence.

If you have any questions prior to the conference, please contact Mr. R. D. Thomas at 415-943-3763.

Sincerely,

*Original Signed*

R. A. Scarano, Director  
Division of Radiation Safety  
and Safeguards
