Terry,
May want
to return for
UNC issue

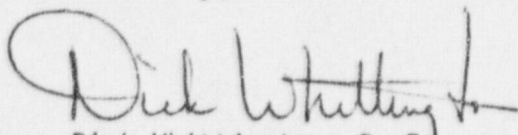

Dear Ms. Fort:

I am enclosing for your information a new organization chart for EPA Region 6 which reflects a reorganization of the region effective October 1, 1985. The principal reason for the reorganization is to accommodate significant increases in complexity and responsibility in our air, pesticides, toxics, hazardous waste management and underground injection control programs.

Also, along with the Agency's on-going management program designed to increase the diversity of experiences for top and mid-level EPA managers, you will note a few personnel reassignments on the chart. The reassignments will provide new opportunity for growth and development among EPA managers and fresh perspectives to EPA programs.

I trust you will find that the new organization will be most beneficial in our mutual effort.

Sincerely,

Dick Whittington, P. E.
Regional Administrator
