Docket No. 50-382

Mr. J. G. Dewease
Senior Vice President - Nuclear Operations
Louisiana Power and Light Company
317 Baronne Street, Mail Unit 17
New Orleans, Louisiana 70160

Dear Mr. Dewease:

SUBJECT: EMERGENCY CORE COOLING SYSTEM (ECCS) OUTAGES - TMI ACTION
ITEM II.K.3.17

By letter dated April 18, 1989, the Louisiana Power & Light Company (LP&L) responded to the NRC request for status of implementation of TMI Action Plan Items. For the subject action item, LP&L indicated that a report would be issued after 5 years of operation. This action item was an early requirement after the TMI event to allow the NRC to quickly evaluate the existing requirements and prepare follow-up actions. We consider the requirements of 10 CFR 50.72 and 50.73 and the industries efforts to report on the NPRDS to be adequate for reporting ECCS outages. There is no need for a special report from Waterford 3 to fulfill Action Item II.K.3.17. This item is closed for Waterford 3.

Sincerely,

ORIGINAL SIGNED BY JOSE A. CALVO

Jose A. Calvo, Director
