

DEAR N.R.C. MEMBERS,

DOCKET NUMBER
PROPOSED RULE **PR 50.72.190**
(54 FR 19379)

(272)

IN RESPONSE TO **F.R. 8619379**

YOUR IDEA OF DRY STORAGE IS OK. THE HIGH LEVEL WASTE MUST BE STORED. BUT YOUR EFFORT TO PRODUCE WASTE AT THE POWER PLANTS IS SENSELESS AND CAUSES SUFFERING WHICH WILL CONTINUE TO INCREASE AS THE PLANTS BECOME OLDER. EACH PLANT IS NOW AN ON SITE STORAGE FACILITY SO IT MAKES SENSE TO STOP PRODUCTION OF NUCLEAR WASTE, TAKE STOCK OF WHAT'S ON HAND AND SET UP THE PROPER STORAGE FACILITIES. WE'RE TALKING OF MANAGEMENT FOR MANY HUNDREDS OF YEARS SO OUR IDEAS OF PERMENENT REALLY MEANS WE NEED TO MONITOR THESE MATERIALS AND KEEP THEM IN A SOMEWHAT FLEXIBLE STATE. THE DRY CASKS FIT INTO THIS PICTURE.

COME ON N.R.C. MEMBERS USE YOUR SPIRITUAL MINDS MAKE THE CHANGES, START US OUT AGAIN IN GREAT AMERICAN TRADITION, GET FIRED, BUT KNOW YOUR REWARDS WILL BE JUST. FOR FURTHER COMMENT OR CLARIFICATION WRITE

P.S.
KEEP THE ^{WASTE} ~~SHIT~~ OFF THE ROADS
NO TRANSSHIPMENT

Dale Saltzman
