

MAY 9 1989

Docket No. 50-322

MEMORANDUM FOR: Ronald R. Bellamy, Chief
Facilities Radiological Safety
and Safeguards Branch
Division of Radiation Safety
and Safeguards, Region I

FROM: Robert A. Erickson, Chief
Reactor Safeguards Branch
Division of Reactor Inspection
and Safeguards, NRR

SUBJECT: EVALUATION MEMORANDUM - VISITOR ESCORT REQUIREMENTS
AT SHOREHAM NUCLEAR POWER STATION (SNPS)

This is in response to your memorandum dated December 8, 1988, addressing the escort policy at Shoreham Nuclear Power Station (SNPS).

As you know, this issue has been discussed with the licensee on several occasions. As a result of these discussions, the licensee agreed on April 19, 1989, to upgrade the visitor escort requirements in the Office and Services Building and the Office and Services Building Annex, or provide additional security measures satisfactory to the staff.

These changes will be processed in accordance with 10 CFR 50.54(p), and will be effected within one month of the date of the enclosed memo, "Security Plan Change, Shoreham Nuclear Power Station, Docket No. 50-322 dated April 19, 1989," or prior to exceeding 5 percent power, whichever comes first.

We appreciated the Region I staff's attentiveness to detail in identifying this inconsistency with the NRC-approved Physical Security Plan and the NRC regulatory requirements.

Original Signed by Robert A. Erickson

Security Plan Change
Shoreham Nuclear Power Station
Docket No. 50-322

Gentlemen:

This is to inform you that LILCO is processing a change, in accordance with 10 CFR 50.54(p), to our Security Plan which will be in effect within one month of the date of this letter or prior to exceeding 5% power whichever comes first. This change will upgrade visitor escort requirements in the Office and Services building and the Office and Services building annex or provide additional security measures satisfactory to the staff.

Should you require additional information please do not hesitate to contact my office.

Very truly yours,

John D. Leonard, Jr.
Vice President - Nuclear Operations
