Dear Mr. Breese:

I am in receipt of your March 30, 1982 letter regarding Condition No. 5 of the August 19, 1980 EID letter.

I am at a loss as to what prompted this reminder. Are you suggesting that UNC has overlooked this Condition in our milling operations?

For clarification, the neutralization report that you reference does not report mill operations. It does report operations of tailings neutralization circuits.

Very truly yours,
