

DOCKET NUMBER 20-19  
PETITION RULE PRM (54 FR 5089)

10

# LAKE CTY CONCERNED CITIZENS

P.O. Box 522 Painesville, Ohio 44077

'89 MAR 21 12:00

March 17, 1989

OFFICE OF THE SECRETARY  
DOCKETING & SERVICE  
BRANCH

Secretary of the Commission  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

ATTENTION: Docketing and Service Branch

RE: Docket No. PRM-20-19; to amend 10 CFR Part 20

To Whom It May Concern:

Lake County Concerned Citizens, a safe energy advocacy group representing thousands of customers of Cleveland Electric Illuminating Co. who live in the shadow of the Perry Nuclear Power Plant, fully support the request for an emergency rule change to require a detectable odor to be injected into radioactive emissions of nuclear power plants and all other facilities over which the NRC has jurisdiction.

As a matter of fact, Lake County Concerned Citizens would like to see a safe, nontoxic visible colorant added to radioactive emissions.

Thank you for your time and consideration.

Sincerely yours,

*Connie Kline*
