Subject: Redesignation of the Davis-Besse Emergency Plan and Associated Documents

Gentlemen:

The purpose of this letter is to inform the Nuclear Regulatory Commission (NRC) that Toledo Edison will begin submitting "Information Only" rather than "Controlled" copies of revisions to the Davis-Besse Emergency Plan and its associated procedures. This change is being made in response to requests by the NRC Emergency Preparedness Branch for Toledo Edison to provide these revisions as "Information Only" rather than "Controlled" documents. Additionally, 10CFR50.4(5) does not require that revisions to the Emergency Plan and its associated procedures be submitted as "Controlled" copies. These documents, revisions of which are currently submitted to the NRC Document Control Desk as "Controlled" documents, are as follows:

<u>Document</u>	<u>Controlled Copy Number</u>
Davis-Besse Emergency Plan	1625
Davis-Besse Emergency Plan Implementing Procedures	1625
Davis-Besse Emergency Plan Off Normal Occurrence Procedures	1625

For the aforementioned reasons, effective 45 days from the date of this letter, future revisions to the Davis-Besse Emergency Plan and its associated procedures will be provided to the NRC Document Control Desk as "Information Only" rather than "Controlled" documents. "Controlled" copies of the Davis-Besse Emergency Plan and its associated procedures currently maintained by the NRC will be replaced with "Information Only" copies following this effective date.

Should you have any questions regarding this redesignation, please contact Mr. R. W. Schrauder, Nuclear Licensing Manager, at (419) 249-2366.

Very truly yours,
