Nuclear Materials Safety Section  
101 Marietta Street, Suite 2900  
Atlanta, GA 30323

ATTENTION: Ms. Carol A. Connell

Dear Ms. Connell:

By way of this letter, I am requesting an amendment to our Materials License Number 47-01542-01, Amendment 17. An additional copy of this letter, two copies of our license, and a check in the amount of \$60 are enclosed.

I would like to have our license amended to reflect Michael A. Martin as the person designated in items 11 and 14 in place of me (Ronald H. Williams).

Mr. Martin is a graduate of West Virginia University with an emphasis in safety studies. He has three years experience in the safety profession and has used licensed material under my supervision for over two years.

On June 13, 14 and 15 of 1988, he attended Ohmart Corporation's Radiation Safety course at Cincinnati, Ohio. I believe Mr. Martin is well qualified to maintain our materials program within the provisions of authorized use specified in our license.

Thank you for your cooperation.

Sincerely,

*Ronald H. Williams*  
Ronald H. Williams
