Subject: Maine Yankee Final Safety Analysis Report, Revision 7

Gentlemen:

Pursuant to the requirements of 10 CFR 50.71, please find enclosed eleven copies of replacement pages to update the Maine Yankee Final Safety Analysis Report (FSAR). Instructions for page replacements are included in each enclosed package.

Several FSAR figures are based on plant drawings which were still in revision at the time of this FSAR update. The latest controlled copy of those drawings were incorporated into revised FSAR figures which are included in the enclosed update. The changes not reflected in the subject FSAR figures do not reflect information or analyses required by or submitted to the NRC, and the changes do not affect nuclear safety. The subject FSAR figures will be updated for the next Annual FSAR Update.
