Re: Mt. Taylor Radioactive Material License NM-GUL-ML-00

Dear Mr. di Zerega:

I am in receipt of your letter dated January 21, 1981. In response to your request, I wish to inform you that conditions 3 through 15 for Gulf's license were imposed for the reasons stated in the following documents:

1. Memorandum of December 23, 1980, from Cubia Clayton to Thomas Baca concerning "Hearing on radioactive material license application by Gulf Mineral Resources Company"--two pages.

2. "Comments of EID legal staff on Gulf Mineral Resources Company's applications for discharge plan approval and radioactive material license"--14 pages.

3. Memorandum to Thomas Baca from James L. Mackin dated December 4, 1980, concerning "recommendation for issuance of radioactive material license to Gulf Mineral Resources Company." Included with this memorandum is a proposed radioactive material license containing twelve proposed conditions.

4. Memorandum dated November 21, 1980 from James L. Mackin to Radiation Protection Bureau staff concerning "proposed license conditions for the Gulf Mt. Taylor project." This memorandum consists of two pages plus an attachment of eleven pages titled "Proposed license conditions Gulf Mt. Taylor Uranium Project" beginning with paragraph No. 9 and proceeding through paragraph No. 24.

The above items, copies of which are enclosed, are those which I wish to inform Gulf served as the basis for imposition of conditions Nos. 3-15 and thus constitute "reasons" as found at Section 3-312 of the Radiation Protection Regulations.

Sincerely,

Thomas E. Baca
Director
