Re: Freedom of Information Act inquiry re PSE&G civil penalties

Dear Colleagues:

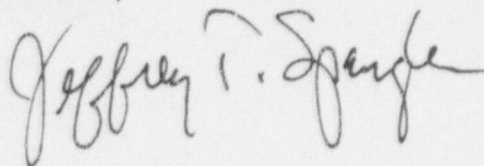

Pursuant to the Freedom of Information Act, I am submitting these questions about the history of civil penalties imposed upon and collected from New Jersey's Public Service Electric & Gas [PSE&G] Company, licensed to operate the Salem 1, Salem 2 and Hope Creek nuclear units at Artificial Island.

1. What is the total amount of civil penalties imposed upon and collected from PSE&G, excluding individual operators, since the commercial operation dates of its reactors in 1977, 1981 and 1986, as of the date of your response?

2. Has any other corporate commercial nuclear power licensee accrued a higher total of civil penalties imposed and collected than PSE&G as of the date of your response? If so, which licensee(s) and in what amounts?

Please advise me in advance if search, review and copy costs will exceed \$25. Thank you for providing this information, which your Public Document Room staff advised me was not immediately verifiable by them, but could be more easily ascertained by the Office of Enforcement.

Sincerely,

Jeffrey T. Spangler
