Mr. Juan R. Velasquez
Phillips Uranium Corporation
Box 26236
4501 Indian School Rd. N.E.
Albuquerque, NM 87125

Dear Mr. Velasquez:

I am writing with regard to the proposed visit to the Nose Rock Site on January 30 or 31. The purpose of the visit would be for a preliminary field orientation and to familiarize us with your plans.

We expect that our group would include Jerry Stewart, myself and a water quality representative from the EID, George Wu and Hubert Miller from the NRC, and John Nelson as an NRC consultant. By this time we should have the perched ground water report which we hope to receive in early January. Please send 10 copies of the report as we need this number of copies of all parts of your application.

Yesterday (December 19) we received the revision to your radiological assessment dated December 11, 1979 and have sent a copy to NRC. We would appreciate receiving 8 more copies of this report.

We would welcome an informational meeting with you and Mr. Tappen on January 4. Mr. Stewart and I would appreciate it if we could have the meeting in the EID office.

I look forward to meeting you in the New Year.

Sincerely

William M. Fleming
Environmental Scientist
