

9/29/88

The United States Government is a government
of the people and for the people.

I want to believe this.

I want my children to believe this.

I fear we are being disillusioned.

After seeing all the facts presented
about Belgium it is still about
to go on line.

I fear the U.S. government is
a government of big business
and for big business. What
have we to offer our children?

I pray God will lead you in
your decisions. He has made us
caretakers of his world. It is
an awesome responsibility.
