Gentlemen:

This refers to the routine safety inspection conducted by Messrs. S.J. Mulay and N. McElroy of this office on April 28, 1989, of activities authorized by NRC Byproduct Material License No. 34-24415-01 and to the discussion of our findings with you at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice. A written response is required.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,
