

DCS No: 050277890721  
Date: July 21, 1989

PRELIMINARY NOTIFICATION OF EVENT OR UNUSUAL OCCURRENCE--PNO-I-89-60

This preliminary notification constitutes EARLY notice of events of POSSIBLE safety or public interest significance. The information is as initially received without verification or evaluation, and is basically all that is known by the Region I staff on this date.

Facility:  
Philadelphia Electric Company (PECo)  
Peach Bottom Atomic Power Station  
Unit 2  
Delta, Pennsylvania  
Docket No. 50-277

Licensee Emergency Classification:  
☐ Notification of Unusual Event  
☐ Alert  
☐ Site Area Emergency  
☐ General Emergency  
☒ Not Applicable

Subject: PEACH BOTTOM UNIT 2 AUTHORIZED TO PROCEED TO 100% POWER

The NRC has further relaxed the order which shut down the Peach Bottom Atomic Power Station in March, 1987, to allow the licensee to increase power of Unit 2 from 70% to 100%. The NRC has evaluated the restart of Unit 2 and subsequent steady state operations at 70% power and determined them to be satisfactory.

Inspections on site will continue with around-the-clock coverage during power ascension from 70% to 100% power.

The Commonwealth of Pennsylvania and the State of Maryland have been informed.

NRC Region I will issue a press release.
