

MAR 15 1989

Docket No. 50-344

Portland General Electric Company
121 S. W. Salmon Street, TB-17
Portland, Oregon 97204

Attention: Mr. David W. Cockfield
Vice President, Nuclear

Gentlemen:

Subject: NRC Inspection of the Trojan Nuclear Plant

This refers to the inspection conducted by Mr. R. C. Barr and Mr. G. Y. Suh of this office from January 1, through February 11, 1989, of activities authorized by NRC License No. NFF-1, and to the discussion of our findings held by Mr. Barr and Mr. Suh with Mr. Olmstead and other members of your staff periodically during the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observations by the inspectors.

Based on the results of this inspection, it appears that certain activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. The subjects of these violations, as outlined in the cover sheet to the enclosed report, have been areas of special emphasis by Nuclear Division Management over the past two years. In light of findings in this inspection and in an ongoing inspection of a steam generator water level transient, our concern over procedural adequacy and compliance has been renewed, particularly in maintenance and surveillance related areas. These problems may indicate the need for you to reassess progress in these areas and consider additional actions. Also, we understand that you have taken actions to assure that problems such as the violation related to inaccurate and incomplete information do not recur, and we encourage your efforts in that regard.

Your response to the Notice of Violation is to be submitted in accordance with the provisions of 10 CFR 2.201, as stated in Appendix A, Notice of Violation. In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and the attached Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
