Ms. Patricia Vacherlon  
U.S. Nuclear Regulatory Commission  
Region III  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Dear Ms. Vacherlon:

RE: License No. 48-18213-01 Control No. 07901

To explain further our phone conversation, I have put together the following:

The unit is stored in Room A-002 of the attached copy blue print. This room is secured and only personnel who work in the laboratory have access to this room. They have all been briefed as to what is contained in the box the unit is stored in and the box is marked accordingly.

I hope this will fill the requirements of the licensure and if you have any further questions, please feel free to contact me.

Thank you.

Sincerely,

PETER C. WACHS  
Superintendent
