John E. Glenn, Ph.D., Chief
Nuclear Materials Safety Section A
Division of Radiation Safety and Safeguards
Nuclear Regulatory Commission
Region I
475 Allendale Road
King of Prussia, PA 19406

THRU: James W. Fletcher, M.D.
Director, Nuclear Medicine Service (115)
VA Central Office
Washington, DC 20420

FEE EXEMPT

Dear Sirs:

As can be seen from the enclosed copy of the NRC license issued to the Lowell General Hospital, X-ray Department, Subhash G. Lathi, M.D. had been deemed qualified to use or supervise the use of licensed material listed in Groups I, II and III of Schedule A, Section 35.100 of 10-CFR-35.

Dr. Lathi is now an employee of the Veterans Administration Medical Center, Providence, RI, where he serves as Chief of the Radiology Service. Since his training and experience qualifies him to use and supervise the use of licensed materials listed in Groups I, II and III, I would like to have his name added to this Veterans Administration Medical Center's license No. 38-04946-01 as a user. This action will serve to protect the integrity of the Nuclear Medicine Service, the research being conducted at this Center and the Radiation Safety Committee in the event of Dr. Spraragen's absence due either to approved leave, annual leave or illness.

Thank you for the attention I know you will give this matter.

Sincerely,

Edward H. Seiler
EDWARD H. SEILER
Medical Center Director
