Gentlemen:

This refers to your application dated October 27, 1988, for an amendment to Materials License 18-00648-01.

Your application is subject to an application fee of \$230 as specified in fee Category 3E and Footnote 1(d) of §170.31 of 10 CFR 170, copy enclosed. Footnote 1(d) states in part that an application for amendment to a materials license that would place the license in a higher fee category or add a new category must be accompanied by the prescribed application fee for the new category. Your request to add an AECL Gammacell 1000 irradiator will increase the scope of your licensed program to include fee Category 3E. Payment of the \$230 fee should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention at our Washington, D.C. address.

Your application will be processed by the Region I Licensing staff located at 475 Allendale Road, King of Prussia, Illinois 60137. The fee, however, is required prior to issuance of the amendment. When submitting the fee, please refer to CONTROL NUMBER 109814.

Sincerely,

Signed by:
Glenda Jackson
