Nuclear Materials Safety Section
1450 Maria Lane, Suite 210
Walnut Creek, California 94596

Attention: Frances Roselinsky

RE: License Number 50-21238-01
Control Number 70730

The drawing numbers for our Model 3400 moisture density gauges are:

- ° Cesium 137/Drawing Number 102112
- ° Americium 241/Drawing Number 102451

The Model 2400 series moisture density gauge listed on our previous license was being used in Alaska from our home office in California by using the authority of reciprocity. It should not have been put on our license. That device was returned to our home office after being used.

Very truly yours,

HARDING LAWSON ASSOCIATES
