The staff has reviewed the applicant and FEMA documents in accordance with the criteria of SRP 13.3, "Emergency Preparedness." The staff review has found that onsite emergency preparedness continues to be acceptable and is adequate for full power operation. Based on the submitted FEMA reviews and reports, the staff has concluded that the state of offsite emergency preparedness will be adequate and acceptable for full power operation upon verification of installation and operation of the Vehicular Alert and Notification System (VANS) for the Massachusetts Emergency Planning Zone (EPZ), and the Public Alerting System for the New Hampshire EPZ.

A Safety Evaluation updating the status of onsite and offsite emergency preparedness for the Seabrook Station is enclosed.

Sincerely,
