U. S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, IL 60137

Attention: A. S. Davis
Regional Administrator

Gentlemen:

Subject: License Nos. 22-00057-06 and 22-00057-32G
Docket Nos. 030-04951 and 030-04971

Enclosed is a July 11, 1988 status report on those organizations in the food, beverage, cosmetic, pharmaceutical, and medical device industries which have not returned 3M Brand Static Eliminators to us. You will note that there are only four organizations listed. Of those, one possesses 29 out of the 36 devices outstanding. The situation involving the 29 units was discussed with Dr. Bruce Mallett of your organization some time ago and we understand that the matter is being pursued by both the NRC and the state where the devices are located.

Sincerely,

Robert G. Wissink, Chairman
Isotope Committee
