

APPENDIX A

NOTICE OF VIOLATION

North American Inspection, Inc.
Laurys Station, Pennsylvania 18059

Docket No. 030-20982
License No. 37-23370-01

As a result of the inspection conducted on August 4 and 9, 1989, and in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (Enforcement Policy) (1988), the following violation was identified:

10 CFR 20.101(a) limits the whole body radiation dose of an individual in a restricted area from radioactive material and other sources of radiation to one and one quarter rems per calendar quarter, except as provided by 10 CFR 20.101(b). Paragraph (b) allows a whole body radiation dose of three rems per calendar quarter provided specified conditions are met.

Contrary to the above, two individuals working in the restricted area received whole body radiation doses of 2.1 and 1.7 rems respectively from radiographic sources and x-ray equipment during the third calendar quarter of 1988 and the conditions of paragraph (b) were not met.

This is a Severity Level IV violation. (Supplement IV)

Pursuant to the provisions of 10 CFR 2.201, North American Inspection, Inc. is hereby required to submit to this office within thirty days of the date of the letter which transmitted this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending this response time.
