License No. 12-16690-01

30-11485

Dear Mr. Goldsmith:

This refers to a telephone contact conducted September 14, 1989. The contact was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The contact consisted of my discussion with you.

As a result of this examination of activities, regulatory concerns were noted and are specified below. They may be evaluated at an onsite inspection at your facility in the near future.

During our telephone conversation, the following apparent regulatory concerns were identified:

It appears as though you are not fully aware of the duties for the Corporate Radiation Safety Officer as described in the letter dated April 14, 1988 (referenced in License Condition 20).

You should examine your license and NRC regulations to determine how you can correct the apparent regulatory concerns. Please submit to this office within 30 days of this letter, a description of actions taken or those that will be taken to correct the above mentioned regulatory concerns.

If you have any questions regarding this contact, you may contact us at (312) 790-5500.

Sincerely,

D. J. Sreniawski, Chief
Nuclear Materials Safety
