Amend 01
Canada

Reference: NRC License No. XU08664.

Dear Ms. Wright:

As discussed in our telephone conversation of 24 May 1989, This letter is in request for amendment of the referenced Export License authorized to Honeywell inc. Information specific to this amendment request is as follows:

1. Amend the license expiration date to 31 December 1991 to allow for an anticipated extended timeframe in which export may occur.
2. The ultimate end use as specified in item 11. of the 25 April 1988 application should be amended to include, "DU material to be shipped to Eldorado for purpose of obtaining surface coating, and subsequently returned to Honeywell, Inc. in conjunction with U.S. Government contract work".

As we discussed, this amendment is urgently needed to fulfill timeline requirements of related U.S. Government contracts; as such it is requested that the waiting requirements of your agency for authorization of this request be waived. It is further requested that you forward a copy of your authorization for this amendment request to my attention at fax number (612) 638-5002 by 31 May 1989.

Your assistance in this matter would be greatly appreciated. If I can be of any assistance or if you need any additional information, please contact me at (612) 638-5205.

Sincerely,

HONEYWELL, INC.
