700 Roosevelt Road  
Glen Ellyn, IL 60137

Dear Sirs:

This letter is to request amendment to NRC License Number 34-12291-07 to replace Mr. E.A. Brentlinger as Radiation Safety Officer with Mr. Lewis Johnson.

For the past 3 years Bowling Green State University has contracted the Radiation Safety Officer duties to Mr. Brentlinger a consultant. During the time Mr. Brentlinger has been the Radiation Safety Officer the University has hired Mr. Lewis Johnson, an Industrial Hygienist, to train for the position of Radiation Safety Officer. Since his hiring Mr. Johnson has attended two courses in Radiological Health at the University of Texas Health Science Center at San Antonio (certificates enclosed) and a Radiation Safety Officer training course presented by Radiation Safety Associates, Inc., in Hebron, Connecticut (certificate enclosed). The total time of formal training was 116 hours. Mr. Johnson has also worked under the direction of Mr. Brentlinger for the past 23 months learning the specifics of Bowling Green State University's Radiation Safety program and performing on hands radiation safety survey's and laboratory evaluations.

It is the consensus of the Radiation Safety Committee that at the present time an Radiation Safety Officer on campus full time would better serve the needs of the University.

If you need any further information, please contact us at 419-372-2171.

Sincerely,

*Lee A. Meserve*

Lee Meserve, Chair  
Radiation Safety Committee
