799 Roosevelt Road
Glen Ellyn, Illinois 60137

Subject: Amendment to license

Reference: Byproduct Material License Number 34-02963-01
Timely renewal, Control Number 83661

Gentlemen:

We are requesting an amendment to our license which is currently covered by a timely renewal. The purpose of this amendment is to permit Amersham/Tech Ops to ship a new calibration source Model 773 (165 mCi of Cesium). This was not contained on our original license so that Amersham will not ship without specific authorization. (The Model 773 was covered by our license renewal.)

We appreciate your expediting this matter as use of this material has become of pressing importance.

Very truly yours,

THE WM. POWELL COMPANY
